SPRINGFIELD STREET GUIDE
AND DIRECTORY OF HOUSEHOLDERS

EXPLANATORY NOTES

In the Street Guide residences and places of business are designated by their street number, and are arranged in numerical order.

Names are given of all in business and householders.

The streets are arranged in alphabetical order and the intersecting streets are given at the proper number where they intersect. In cases where no intersecting number could be given the street intersection is dropped.

The word vacant after a number signifies that the house or store at that number was vacant when canvass was made.

A dash (—) signifies that no number has been assigned.

The abbreviation r between the street number and the name signifies "rear."

* Denotes parties having telephones.

Office hours, from 8 a m to 5 p m; Saturdays, 8 a m to 1 p m. Telephones: during office hours, 6100, *after office hours, 6008.* The supply of water is taken from the Westfield Little River watershed, situated principally in the towns of Blandford, Granville, and Russell, and by means of the following storage structures:—

	Capacity in Gallons
Borden Brook Reservoir (impounding),	2,500,000,000
Intake Reservoir (diverting),	40,600,000
Sedimentation Basin (before filtering),	38,700,000
Provin Mountain Reservoir (after filtering),	17,000,000
Total,	2,596,300,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for town of Ludlow and for emergency uses, and, with its storage capacity of 1,434,218,000 gallons, makes an *aggregate available storage capacity of* 4,030,518,000 *gallons.*

Range of pressure on mains for day and night as follows: Main street level, maximum, 147 pounds, average, 140 pounds. Hill section level, maximum, 87 poands, average, 80 pounds.

☞ The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water department at the expense of the consumers for the initial cost of the meters and connections only.

☞The cost of *ordinary* care and repairs of all meters is borne by the water department; the cost of unusual repairs (necessitated by freezing, hot water, etc.) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

Meter Rates

Subject to all rules and regulations in force

RATES FOR GENERAL USES

For each 100 cubic feet (748 gallons) of water consumed on each independent premises (so called), when registered by meter, the rates shall be as follows:—

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (equivalent to about 30 cents per 1,000 gallons).

For all excess over the first 5,000 cubic feet per quarter, at 5 cents per 100 cubic feet (equivalent to about 7 cents per 1,000 gallons).

The object of Salvation Army is to carry the Gospel of the Lord Jesus Christ to the thousands who to-day never darken the doors of the places of worship and to bring the Bible message to the outcast of society, whether in prison or brothel or any place harboring vice, iniquity, or intemperance.

When a hungry man is given a meal, or a worker visiting a slum home with a basket of life's necessities, Thanksgiving or Xmas dinners given to the poor, it is not only to relieve an immediate need, it is for a higher purpose of bringing them the message of the Gospel of Light and Love, that the recipient of the humble gifts may think of Him who was rich, but for our sakes became poor and took upon Himself the form of man, and by paying the debt of sin made it possible for us to be reconciled with the Father by the gift of Himself.

Our constant effort is to help others to help themselves; eventually they too become helpers of others.
